

THE 2013 CAN PARADE OF HOMES

COMMUNICATIONS ACTION NETWORK

SHARING THE BENEFITS OF
HOUSING AFFORDABILITY IN
THE WASHINGTON, D.C. REGION

SATURDAY, MAY 18, 11 AM - 3 PM

The Communications Action Network (CAN) is sponsoring an affordable communities Parade of Homes, a free public event to showcase the variety and quality of affordable communities throughout the Washington metro region.

Some 20 affordable communities all around the Washington DC metro are taking part in this regional open house to share current examples of affordable housing.

This event will not feature homes that are currently available for rent or purchase, but rather, homes that are already making a difference to our region's economy and hard-working households.

So come on in and see for yourself the variety of benefits today's affordable communities offer our region's children, families, communities and ability to add jobs.
