OFFICE OF DOMESTIC CLIMATE POLICY HOSTS SOLAR EVENT
A Proper Kickoff to National Clean Energy Week

The White House Office of Domestic Climate Policy, in collaboration with New Columbia Solar, is hosting a solar panel installation event on Saturday, September 18, 2021, at 9:30 a.m. at Crescent Park Village apartments in Southeast, Washington, DC.

A proper kickoff to National Clean Energy Week, local policy makers will gather at the property to discuss their dedication to clean energy. MHP, the community developer, has worked to include Crescent Park Village apartments in the 2021 Solar for All program, which aims to bring the benefits of solar energy to 100,000 low- to moderate-income families in the District of Columbia.

“MHP is excited to participate in the Solar for All program. It not only is playing a big impact on climate change, but also reducing utility bills for low-income residents and providing funding to support the development of affordable housing in DC,” says Robert Goldman, MHP President.

Invited guests include Mayor Muriel Bowser; Councilmembers Anita Bonds, Christina Henderson, Elissa Silverman, Kenyan McDuffie, Mary Cheh, Robert White, Trayon White; District of Columbia Public Service Commission Chairman Willie Phillips; DC Sustainable Energy Economist/Senior Program Analyst Lance Loncke and Associate Director Ari Gerstman; ANC 8D Chairwoman Alyse Newhouse; and a Solar for All Program recipient who resides in Crescent Park Village.

Date: September 18, 2021

Time: 9:30 a.m.

Location: 15 Elmira Street SE, Washington, DC 20032. Courtyard between 15 and 21 Elmira Street SE.
